## **DETAILED ACTION**

### **Response to Amendment**

1. This Office Action addresses newly added claims 16 and 17. The claim amendments and the submission of the translation of priority document 2003-14090 are sufficient to obviate the rejection over Leddy. However, the claims are newly rejected under 35 USC 102 herein. Accordingly, this action is made final.

### **Claim Rejections - 35 USC § 102**

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Hitomi et al (U.S. Pre-Grant Publication No. 2002/0019308). Hitomi et al. teach a fuel cell comprising electrodes and a proton exchange electrolyte membrane. The electrodes each comprise an electroconductive porous substrate, a catalyst such as platinum, and a cation exchange polymer such as perfluorinated sulfonic acid (see [0079]-[0080]). In [0058], it is disclosed that the cation exchange polymer may be a mixture of two or more resins including sulfonated styrene/butadiene. The sulfonated styrene-butadiene corresponds to the “proton-supplying material” recited in claim 16, and the other resin (i.e., perfluorosulfonic acid) corresponds to the

“proton-conductive ion exchange electrolytic polymer” recited in claim 16. Thus, the instant claims are anticipated.

### **Conclusion**

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
